Bundled Payments for Care Improvement (BPCI) Advanced Annual Check-in Questionnaire

Thank you for taking time to complete this important questionnaire.

Purpose:

This questionnaire will be sent annually as part of the Center for Medicare & Medicaid Service's (CMS) efforts to monitor Model implementation and Participant compliance for BPCI Advanced in accordance with Article 13 of the Participation Agreement. CMS will use the responses to monitor Participants' activities and barriers related to designing and implementing the BPCI Advanced Model and the associated impact of these activities. Results from this effort will inform learning and other CMS activities designed to help Participants provide high quality beneficiary care and increase likelihood of achieving success in the Model. The Monitoring and Compliance team will review the completed questionnaires and documentation in concert with CMS. Follow up with Participants may be required if further clarification is needed related to submitted information.

Instructions:

Participants are required to complete a questionnaire for each BPCI Advanced Participation Agreement they have with CMS. The questionnaire should be completed by a Participant representative with knowledge of various aspects of the Participant's experience in the BPCI Advanced Model. If needed, you are encouraged to reach out to other subject matter experts in your organization. Please respond based on how each question applies to the Participant. If any question does not apply, please select N/A. For clarification of key terminology (e.g., BPCI Advanced Entity, NPRA Sharing Partner and Payment Policy Waiver), please refer to Article 2 Definitions of the Participation Agreement.

If applicable, use the Excel spreadsheet (Waiver Data Collection Template), found on the Participant Portal to document responses to the following:

Waivers (Fraud & Abuse and Medicare Payment Policy), Questions #3 and #7

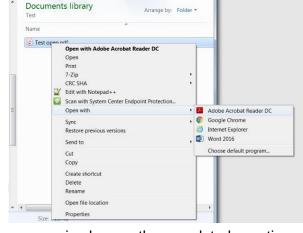

Special PDF software is not needed to complete this questionnaire. You can use the free_Adobe Acrobat Reader DC to complete the questionnaire. If your computer does not have a PDF reader installed, please download a PDF Reader to access the full functionality of the fillable PDF.

Some computers are configured to default automatically, upon double-clicking to open PDF files in applications other than Adobe Reader, such as an Internet browser. To ensure that the application opens in Adobe Reader:

- Save the attachment to a folder on your computer
- Highlight the file name, right click, select "Open with"
- Click on Adobe Acrobat Reader from the drop-down box.

For Convener Participants with more than one Participation Agreement with CMS, if answers to the

The questionnaire is due **no later than September 23, 2019 at 11:59PM ET** in the <u>Participant Portal</u>. Please complete this questionnaire electronically as it contains drop down options that are not visible in a printed hard copy. Please upload the completed questionnaire and relevant documentation requested within the questionnaire to the <u>Participant Portal</u>.

Contact:

CMS contracted with IMPAQ International, LLC to perform BPCI Advanced compliance and monitoring activities. If you have any questions regarding this questionnaire, please contact IMPAQ at_BPCI Advanced MC@impagint.com.

Participant Profile

1.	Does the Participant anticipate making any additional changes to the list of Episode Initiators within the Participant Profile effective for Model Year 3?
ľ	No
2.	Is the Participant likely to add Clinical Episodes within the Participant Profile effective for Model Year 3?
L	Jnsure
3.	Is the Participant likely to remove Clinical Episodes from the Participant Profile effective for Model Year 3?
U	nsure
Car	The Participant is on track to implement selected Care Redesign interventions within the timeframes indicated within the Care Redesign Plan.
	Strongly agree
	• Agree
	Neutral Neutral
	Disagree
	Strongly Disagree
2.	Please provide 2-3 sentences below describing the progress of your high priority Care Redesign Interventions:

Our practice has been increasing our use of data driven analytics with CMS provided claims data and focusing increasingly on complete and accurate pre-surgical diagnosis and risk stratification. Using our EMR, data analytics suite, standardized reports, clinical feedback meetings, claims data, patient reported outcome data, and care navigation data is increasing our ability to review and plan care improvement initiatives and expand their reach, interdisciplarily. Our practice highly emphasizes the use of patient education to inform patients' experience in the entire continuum of care. We have been developing therapy protocols, care plans, improved discharge planning, and patient care planning to enforce with our preferred PAC partners.

3. Do you have concerns regarding implementation of any identified Care Redesign Interventions?

4. Please use the comment box below to provide additional details regarding successes, challenges, and/or barriers to Care Redesign Interventions.

Frequent data changes (changes in target methodology, changes in templating, late-released ACO data, etc) paired with programmatic changes such as total hip and knee volume changes due to the TKA movement off of the Inpatient Only list, etc, make it difficult to be confident in data. Late receipt of data in advance of critical decision deadlines (we have not yet received a reconciliation file and are approaching the 90 day deadline to withdraw from Episode categories for 2020) increase perceived risk and make it difficult to model for the future. Difficulty anticipating volumes (hip/knee, IP/OP, ACO, etc) has discouraged financial relationships with PAC partners.

CEHRT Use

1. The Participant and/or the Downstream Episode Initiator(s) is on track to implement Certified Electronic Health Record Technology (CEHRT) in a manner sufficient to meet the applicable requirements of the Advanced Alternative Payment Model criterion under 42 C.F.R. & 414.1415(a)(1)(i). To meet this criterion, at least 75 percent of eligible clinicians in each participating APM Entity group, or each hospital if hospitals are the APM Entities, to use CEHRT to document and communicate clinical care.

partners.

	N/A
1	Financial / Programmatic Infrastructure
-	
	 Has the Participant set up an accounting system to be used, to measure and track Net Payment Reconciliation Amounts (NPRA) received from CMS, Repayment Amounts and Excess Spending Amounts owed to CMS and Administrative Services?
	N/A: System already in place before this model
2	2. Is the Participant still participating in Financial Arrangements with one or more NPRA Sharing Partners?
	N/A; never participated in financial arrangements
,	3. Does the Participant plan to do so in the future?
	Unsure
	4. Has the Participant implemented all BPCI Advanced required processes and procedures related to NPRA Sharing? For example: processes to verify Financial Arrangements comply with all applicable laws and regulations, processes to adhere to generally accepted accounting principles, compliance plan, and others outlined within the Participation Agreement.
	No

5. If selected 'No' to question 4, please describe any barriers/challenges in the comment box

 Please describe key considerations that informed the Participant's decision (e.g. willingness to take on risk) regarding establishing Financial Arrangements.
See #5.
Internal Cost Savings (ICS)
1. Does the Participant plan to track and allow contribution of ICS associated with BPCI
Advanced to the BPCI Advanced Savings Pool(s) in the next 12 months?
No ▼
2. If selected 'Yes' to question 1, has the Participant established a process to measure and
track Internal Cost Savings associated with BPCI Advanced?
N/A; we don ' t participate in ICS Sharing
Net Payment Reconciliation Amount (NPRA)
1. Does the Participant plan to share NPRA associated with BPCI Advanced in the first
performance period, if savings are achieved? [Performance Period 1: October 1, 2018 through June 30, 2019]
Yes ▼

2.	Has the Participant implemented processes and procedures to monitor Shared Repayment Amounts associated with BPCI Advanced?
N	/A; not requiring shared repayments by partners ▼
3.	If selected 'Yes' to question 2, please describe your processes and procedures to monitor Shared Repayment Amounts associated with BPCI Advanced.
N	/A
C	ompliance Plan
1.	Has the Participant completed an initial Compliance Plan? [If your response is 'yes', please upload this document to the amendment section of the <u>Participant Portal</u> If your Compliance Plan includes multiple appendices, you can upload the main document only.]

Waivers (Fraud & Abuse Waivers and Medicare Payment Policy Waivers)

The questions around changes to the selected waivers are included to obtain information on current status of waiver use. CMS communicated to Participants on October 16, 2018 to clarify the selection of waivers on the Participant Profile in a message titled "Participant Profile Selection Does Not Limit Use of Waivers". The use of any of the five waivers available to Participants in the BPCI Advanced Model is not contingent upon its selection on the Participant Profile template that was submitted on August 8, 2018. Even if a Participant made a selection of "No" for any given waiver, they still have the option of using the waiver and receiving its protection effective October 1, 2018.

1.	Has the Participant or partners elected to use any of the Fraud and Abuse Waivers (Financial Arrangements and/or Beneficiary Incentives)?
Υ	es
2.	Has the Participant or partners made any changes to the Fraud and Abuse Waiver use selections since you last submitted the Participant Profile? (E.g., we have not selected to use Financial Arrangements and/or Beneficiary Incentives in our most recent Participant Profile, but we have started using the waiver(s) recently.)
١	No -
3.	If selected 'Yes' to question 2, please use the Waiver Data Collection Template located on the <u>Participant Portal</u> to document waiver use changes at the Episode Initiator-level related to any of the following Fraud and Abuse Waivers:
	Financial ArrangementsBeneficiary Incentives
	When completed, please upload the document to the amendment section of the <u>Participant Portal</u> .
4.	Has the Participant or partners elected to use any of the Medicare Payment Policy (MPP) Waivers?
Υ	es
5.	If you selected 'Yes' to question 4, have you implemented the Payment Policy Waiver(s)?
Ν	o ▼
6.	Has the Participant or partners made any changes to the Medicare Payment Policy waiver use selections since you last submitted the Participant Profile? (E.g., we have not selected to use any of the MPP waivers in our most recent Participant Profile, but we have started using the waiver(s) recently.)
N	lo 🔻

7.	If selected 'Yes' to question 6, please use the Waiver Data Collection template located on the <u>Participant Portal</u> to document waiver use changes at the Episode Initiator-level related to any of the following Payment Policy Waivers: (Please upload attachments to the amendment section of the <u>Participant Portal</u>)
	 3-Day Skilled Nursing Facility (SNF) Rule Post-Discharge Home Visits Telehealth
8.	Has the Participant established a process for monitoring compliance with waiver conditions?
N	No
9.	If selected 'Yes' to question 8, please select from the list below all of the strategies your organization has used for this purpose.
	Attestation
	Internal audit
	N/A; we have not elected to use any waivers
	N/A; we have elected to use waivers, but have not yet established a process for monitoring compliance with waiver conditions
	Other
10). If selected 'Other' to question 9, please list strategies in the comment box below.

Participation in Shared Learning Activities

Beneficiary Notification

1. What is the primary communication channel(s) used to provide beneficiary notification? Select all that applies.

Emailed to beneficiaries	
Mailed to the beneficiary's address	
Provided to beneficiary during an Inpatient Hospital stay or Outpatient Visit	
Provided during discharge procedures	
✓ Other	
2. If selected 'Other' to question 1, please describe the communication channel used to beneficiary notifications.	provide
Provided to beneficiaries in the physician office - component of pre-surgical materials.]
materials.	
3. Does the Participant use the template Beneficiary Notification Letter provided by CMS	32
) :
Yes	
4. If selected 'No' to question 3, please explain.	
	7

5.	Has provision of the beneficiary notification of participation resulted in negative feedback from beneficiaries?
Ν	0
6.	If selected 'Yes' to question 5, what are the primary concerns from the beneficiary perspective?
BF	PCI Advanced Impact
1.	Has the Participant seen any unexpected positive outcomes associated with implementing BPCI Advanced?
U	nsure
2.	Has the Participant seen any unexpected negative outcomes associated with implementing BPCI Advanced?
Υ	es
3.	If selected 'Yes' to either question 1 or 2, please describe.

Despite tremendous effort in care redesign, data analysis and transformation projects, constant programmatic changes; low volume (due primarily to un-administered migration of TKA to OP); corresponding Target price problems that seem to be related to migration of low complexity TKA patients leaving a concentrated more complex MJRLE population; together with analytics that demonstrate most Targets that appeared to be too low at commencement, which seems most extreme for MJRLE Fractures (more relevant with departure of OP Knees), our practice believes that upon 1st reconciliation we will see only slight total positive NPRA and we may reconsider continuing participation in MJRLE due to the cost of innovation and risk.

4. Has the Participant established a process for monitoring and mitigating unintended consequences (e.g., patient targeting/avoidance, inadequate or insufficient care, cost-shifting) associated with implementation of the BPCI Advanced Model?				
Yes ▼				
5. If selected 'Yes' to question 4, please describe.				
 Patient risk screening and expectation setting Preferred PAC network creation Protocol and patient pathway (to avoid inadequate, insufficient, and/or clinically unnecessary care) Discharge planning and education at patient and hospital level Data review and analysis, best case practice sharing Technology implementation (in progress) Waiver utilization (in progress) 				
Beneficiary Impact				
1. Has the Participant implemented a system to request, track and respond to complaints made by BPCI Advanced Beneficiaries? [The complaint process in place does not have to be solely for Beneficiaries in the BPCI Advanced Model. However the current complaint system in place must track complaints made by Beneficiaries in the BPCI Advanced Model.]				
Yes; using existing system				
2. If selected 'Yes' to question 1, do you believe that current processes in place appropriately monitor and address those complaints?				
Strongly agree				
Agree				
Neutral				
Disagree				
Strongly disagree				
Unsure				
N/A; we have not yet implemented a system for monitoring and responding to beneficiary complaints

Self-disclosed Investigations or Sanctions

1. Is the Participant or any of its BPCI Advanced partners under any investigations or subject to sanctions that have not been reported to CMS?

2. If selected 'Yes' to question 1, please provide written notice of any unreported investigations and/or sanctions to CMS via email (BPCIAdvanced@cms.hhs.gov). Additional information is located under Article 13 of the Participation Agreement.

Other Issues Not Previously Listed

 Please describe issues, challenges or barriers associated with implementation of the BPCI Advanced Model that have not being discussed above.

Too late, analytics are showing large variations between Baseline Observed Costs and Targets. Migration of Knees to Outpatient and a possible repeat for hips make the program too difficult. It appears there were predetermined losers, and likely winners, as well. Program changes, such as ACO priority with progressive changes for accuracy typically deferred, TKA migration without any effort to adjust the pool of Observed Episodes damaged comparative accuracy (All TKA included), etc. leaves equity of participation in question. The failure to adjust Baseline Observed Pricing for 2018 and 2019 seems to be too significant an oversight to ignore, while the later inclusion of OPPS TKA at lower adjusted Target Price is synced in 2020.
